

Ansa0 Id Risk Assessment Template

Club Name:

Date:

Event:

People involved:

Note: All members in attendance to review Risk Assessment & sign off

Activity	Risk/Hazard	Control	Risk Score
Power for lighting and Appliances	Electrocution	? Approved leads and equipment ? protected by earth leakage unit ? Test RCD unit	Medium
Food preparation	Food poisoning	? clean equipment ? hygienic practices ? ppe ? food safe boards ? disposable gloves ? Correct refrigeration temperatures	Low
BBQ	? Burns ? scolds ? slips ? trip	? Sufficient people roistered to cook ? fenced off area ? approved gas fittings ,hoses, regulators and bottles ? ppe ? Sand on the floor ? Correct tools	Medium

1. **Identify** hazards 2. **Assess** risks that may result because of the hazards 3. **Decide** on control measures to prevent or minimize the level of the risk 4. **Implement** the control measures 5. **Monitor** and **review** the effectiveness of measures

Activity/Hazard	Risk	Control	Risk Score
Weigh in	? cat fish spikes ? slips and trips ? Strains	? Reject any catfish with spikes attached as per rules of Competition ? fenced off area ? Weigh in conducted by delegated people ? Manual handling techniques	LOW
Lure Casting Competition	? Struck by lure	? Fenced off area ? Hookless lure plug	LOW
Bar	? slips ? trips ? cuts ? Intoxicated persons	? approved bar ? authorised people to work the bar ? fenced off area ? comply with licensing laws ? complete glass free area	LOW

Signed:

1. **Identify** hazards 2. **Assess** risks that may result because of the hazards 3. **Decide** on control measures to prevent or minimise the level of the risk 4. **Implement** the control measures 5. **Monitor** and **review** the effectiveness of measures

ANSAQ Risk Matrix

Likelihood	Consequence		
	Major (death/disability)	Serious (serious injury/Hospitalization)	Minor (injury requiring casualty treatment)
Very Likely (will certainly happen)	Extreme	High	High
Likely (probably happen at some time)	High	High	Medium
Unlikely (could happen at some time)	High	Medium	Medium
Very unlikely (might happen but only rarely)	Medium	Medium	Low

Category of Risk

Low	Acceptable level of risk
Medium	Reduce risk as soon as possible
High/Extreme	Risk must be reduced before proceeding

1. **Identify** hazards 2. **Assess** risks that may result because of the hazards 3. **Decide** on control measures to prevent or minimize the level of the risk 4. **Implement** the control measures 5. **Monitor and review** the effectiveness of the measures
