Raffles

The Townsville Sportfishing Challenge Committee has endeavoured to minimise the cost of competing in the Challenge this year so it is hoped that the raffles will be well supported. Tickets will be on sale at the weigh-in.

Tag & Release Rules

Provision has been made for the tag and release competition to be conducted as a separate sub-section of this competition. The Townsville Challenge tagging list only, as attached, is to be used to identify those species eligible to be tagged for the competition. The rules and guidelines contained in the ANSA Tagging Manual are to apply with the following guidelines highlighted.

Fish must be captured in a manner conforming to ANSA Sportfishing rules. Line classes have no bearings on the point scoring. Scores will be as per the current Tagging Species list.

Anglers are encouraged to use a heavier breaking strain line than would be the normal practice to prevent fighting the fish to exhaustion thus increasing the fish's chance of survival. There will be no limit to the number of fish allowed to be tagged and scored.

All captures and tagging must occur within the time limits and boundaries, as nominated for the competition. For the purposes of the Tagging competition in the Townsville Challenge 2017 the tag can only be recorded under the name of the angler that caught the fish.

In order to qualify the angler must present a list of their tagged fish to the Weighmaster at the designated weigh-in point. All tagging details are to be recorded on the standard forms enclosed.

Lure Casting Competition

A lure casting competition is to be held on completion of the weigh-in. Nomination for this event will be taken at the weigh-in, so bring your **own outfit** and we will supply the lure (less hooks).

A prize will be presented to the winner.
